AUTOMOTIVE SKILLS AGENDA

THE ROAD UNTIL NOW
AUTOMOTIVE SKILLS AGENDA - BACKGROUND

• The European automotive industry is going through massive transformation caused by the impact of digital and green transformation (Green Deal, Fit for 55) and post-covid recovery.

• Impact to the workforce – cca. 15 million people employed in European automotive value-chain

• Impact to the overall Automotive Ecosystem and other related ecosystems (e.g. energy)

• Skills Gap - Jobs endangered VS. struggle to attract and recruit qualified people for new and emerging jobs

• Geographical Gap – new jobs arising in other locations than diminishing jobs
AUTOMOTIVE SKILLS AGENDA - BACKGROUND

Just Transition > Continuous Transition

How to find and assure stability and stable environment for workers in a business environment that is and will be constantly and rapidly changing?

Sustainable, massive and pragmatic approach towards education and training (up-/re-skilling) is needed more than ever before

COLLABORATION IS THE KEY
AUTOMOTIVE SKILLS AGENDA - INITIATIVES

• High Level Group GEAR 2030 (2015 - 2017) - Final report on automotive competitiveness and sustainability

• New Skills Agenda for Europe (2016) with action The Blueprint for Sectoral Cooperation on Skills

• European Skills Agenda (2020) with action Pact for Skills (launched November 2020)
Background Info: Overview of Blueprint Projects

- **automotive 2018** - [https://project-drives.eu](https://project-drives.eu)
- maritime technology 2018
- space - geo information 2018
- textile, clothing, leather and footwear 2018
- tourism 2018
- additive manufacturing 2019
- construction 2019
- maritime shipping 2019
- steel industry 2019
- bioeconomy, new technologies and innovation in agriculture 2021
- **batteries for electro-mobility 2020** – [https://project-albatts.eu](https://project-albatts.eu)
- defence technologies 2021
- energy value chain – digitalization 2021
- energy-intensive industries/industrial symbiosis 2021
- microelectronic manufacturing & design 2021
DRIVES Project

The Blueprint for Sectoral Cooperation on Skills
DRIVES – The **Blueprint** Project for Automotive Sector

**January 2018 to December 2021**

Project assures cooperation between **24 full partners from 11 EU countries**

**Steering Board** has extra 10 associated partners, chaired by **ACEA**, co-chaired by **CLEPA, ETRMA**, as full project partners.
DRIVES – Partnership

• Full Project Partners

• Selected Associated Partners
DRIVES – Objectives

**Sectoral Intelligence**

- **Analyse key trends** in the automotive, covering the whole value chain
- **Define the skills and job roles** needed in the future
- **Analyze existing training offer** currently available for the trainings/upskilling
- **Identify skills gaps** for foreseen changes

**Recognition**

- Ensure **mutual recognition** of the skills and job roles **across the EU**
- **Create an EU-wide framework** that can be used throughout the EU and implemented in the EU regions – based on commonly used definitions
- Regularly **deliver policy recommendations** reflecting the needs of the automotive sector to the European Commission

**Training Offer**

- **Create trainings** for selected skills and job roles in the automotive sector
- **Provide as a pilot 1100 trainings across the EU** and across the education and training institutions
- Provide clear guidance for the education and training providers on skills needs of the automotive industry

---

Development and Research on Innovative Vocational Skills - DRIVES – Project number 591988-EPP-1-2017-1-CZ-EPPKA2-SSA-B. DRIVES Sectoral Intelligence
Skills Index = Occurrence of Skill * average DoC Index of linked DoCs
The analysis led to the strategy and roadmap for the Automotive sectoral skills agenda

Second release in December 2020

Update in December 2021
DRIVES Training Offer
• Based on the **needs of industry identified via Survey Demand**, DRIVES project partnership is **worked on the definition of set of Job Roles**

• **Each Job Role has publicly available**
  • Short fact sheet
  • Skill cards documents describing the learning outcomes
  • Online browsing possibility
• For DRIVES defined job roles the DRIVES partnership is providing **free of charge**
  - **Set of online trainings** in form of **MOOCs (28 online training)**
  - **Courses with trainer interaction** with specific date and capacity in 2021

• **DRIVES Learning Platform**

  [learn.drives-compass.eu](learn.drives-compass.eu)

• **Trainings are free of charge** and could be used **directly by companies or by training providers** in their trainings
DRIVES Recognition of Skills and Job Roles
EU-wide Framework for the Automotive Ecosystem

Recognition of Skills and Job Roles

Reference Description of Competences/skills and Job Roles
- Across the whole EU Automotive Ecosystem

EU Wide Database of Training Courses for Automotive Ecosystem
- Advertisement on the whole market, One-single-point to find the required training and training path

Harmonized Approach to Recruitment and Mobility of Workforce Across the Sector
- Digital Badge for skill/competence level achievement in form of Micro-credentials

Quality Pledge of the Training Courses
- Assured by mapping exercise of the course

www.drives-compass.eu
DRIVES – Selection of Main Project Results

**Sectoral Intelligence**

- Sectoral Skills Needs (D2.7)
- Sectoral Skills Offer and Gap (D2.8)
- Apprenticeship Key Issues and Recommendations (D5.2)
- Hiring an Apprentice Guide (D5.3)
- Sectoral Skills Strategy and Roadmap (D2.10)

**Training Offer**

- 40 Defined New or Emerging Job Roles (D3.1)
- 28 MOOC courses developed and delivered (D3.3)
- Trainer interaction courses delivered (D3.3)
- DRIVES Learning Platform (D3.3)

**Recognition**

- DRIVES Framework (D4.3.1)
- Good Practice Resource Tool (D5.1)

Project

The Blueprint for Sectoral Cooperation on Skills
What is ALBATTs?

- 20 Partners in 4-year (2019-2023) Erasmus+ funded project

- Blueprint for Sectoral Cooperation on Skills in Battery sector

- Focus on demand and supply sides of competences in the battery value chain

The European Commission support for the production of this publication does not constitute an endorsement of the contents which reflects the views only of the authors, and the Commission cannot be held responsible for any use which may be made of the information contained therein.
In short – ALBATTs is answering two big questions

Q1: What is going on? (Answered by WP3,4,5, Sectoral Intelligence)

Q2: How can we address the identified education and training needs? (WP6, Education and Training)
Sectoral Intelligence in **Battery Sector**

- Identification of **skills and job roles needs**
- Set up clear **sectoral skills strategy**
- Covers the **battery life cycle** - batteries developed for and used in both **stationary** and **mobile applications**
- Enabling education sector to provide **education and training** for the future workers and specialists needed by the **battery sector**

**Project results:** [https://www.project-albatts.eu/en/results](https://www.project-albatts.eu/en/results)

*The European Commission support for the production of this publication does not constitute an endorsement of the contents which reflects the views only of the authors, and the Commission cannot be held responsible for any use which may be made of the information contained therein.*
Education & Training

- Analyse new job roles/skills
- **Suggest learning objectives**
- Develop course plans
- Develop learning material
- Try out adaptive learning
- Pilot-test innovative courses
- Train-the-trainer guidelines
- Network!
- Use European instruments
- Implement results

PACT FOR SKILLS PARTNERSHIP INTRODUCTION
• **Pact for Skills** is the first flagship action of the **European Skills Agenda**, firmly anchored in the principles of the European Pillar of Social Rights. It also **supports the EU Industrial Strategy** and the goals of the **Green Deal** and the **digital transformation**.

• The goal of the Pact is to **mobilise and incentivise** private and public stakeholders to **invest and take concrete action** for the upskilling and reskilling of people of working age.

• **It is a shared engagement and approach** to mobilise all stakeholders to **invest in skills** for the growth and sustainable development of private and public businesses of all sizes.

• The Pact facilitates the **launch of skills partnerships**, in particular it aims to **build large-scale multi-stakeholder skills partnerships** addressing the needs of the **14 industrial ecosystems** identified in the EU Industrial Strategy.
Automotive Skills Alliance is focused on the re-skilling and up-skilling of workers in the automotive sector, developing intelligence and fostering dialogue among all relevant partners and stakeholders in the sector and supports the elaboration of specific plans for re- and upskilling, training of workers in the EU automotive sector.

The ASA mission is to contribute to a better coordination of relationships at the European level of all the relevant national or regional stakeholders in automotive ecosystem, in order to ensure and develop a common platform for collaboration and best practice sharing across borders. In this regard, ASA intends to ensure continuous, pragmatic and sustainable cooperation on the skills agenda in the ecosystem.
Collaboration in the **skills partnership** for the automotive ecosystem

- Support collaboration on the regional and European level
- Initiate new projects and initiatives
- Mainstream the existing projects and initiatives
- Execute up-/re-skilling activities

**Updated intelligence** about the automotive ecosystem and its development, as well as guidance to education and training bodies leading to continuous skills needs updates.

- Know & share the trends, needed job roles, needed skills

**ENABLE AND SUPPORT**

**MASSIVE WORKFORCE**

**UPSKILLING AND RESKILLING ACROSS THE AUTOMOTIVE ECOSYSTEM**

**EU-wide framework for skills** and job roles, as well as shared experience and best practices.

- Become part of an EU-wide accepted system
- Access to an overview of education/training providers across Europe through the ASA database

Platform for the **exchange of best practices and one-stop-shop guidance** for the financial instruments available on European and national level for financing skills agenda

- Take advantage of new EU financial resources
Members of ASA participate in Working Groups in which they are interested in.

The leaders of Working Groups are indicated in the structure.

The structure of Working Groups combines, in principle, a horizontal and vertical approach. Working groups are of a vertical nature and ASA member types groups represent a horizontal perspective. Each working group has clearly defined inputs and outputs to particular ASA member types groups.
COLLABORATION OF ASA MEMBERS THROUGH PROJECTS

ASA builds upon the work carried out by strategic projects in the skills agenda for the ecosystem & promotes and facilitates initiation of new projects/initiatives or support mainstreaming the existing ones.

EU Funding > Public Funding > Private Funding

An opportunity to build on the best practices and initiate new projects and collaborations

Skills Needs and Gaps in the Ecosystem
Development of New Training Courses
Centers of Vocational Excellence
Up-/Re-skilling Projects on regional/national or European level
Forward Looking Projects
...any existing/new project or initiative

The Blueprint project on Strategic Sectoral Collaboration in Automotive Sector. Focused on skills needs & offer, training recognition and training developments in the automotive sector.

The Blueprint project on Strategic Sectoral Collaboration in Batteries for Electromobility Sector. Focused on skills needs & offer, support of training developments in the battery sector.

DRIVES
Automotive Sector
(Jan 2018 – Mar 2022)

Batteries Sector
(Dec 2019 – Nov 2023)
ASA allows us to gain a lot of knowledge and expertise, to raise the profile of our region on the European level, enlarge or network and most of all, work with skilled and very dedicated experts in this field.

Platform for up- and reskilling Stuttgart Region in the Automotive and Manufacturing Sector: one-stop-shop for SMEs to answer all question in the field of up- and reskilling. The companies receive information, platform offers and guidance to the different services and offers from the entire partner network.

Collaboration and sharing best practices how to deal with the regional transformation. Get skills that are not in local environment through ASA collaborations. Recognition of the regional up-re skilling project, activities and skills achievements

Moravian-Silesian region: The goal is to up-/re-skill 5000 people up to year 2026 in Mobility ecosystem. The project will support regional transformation from coal mining and related activities to modernized and green mobility industry and ecosystem.

Auvergne-Rhône-Alpes: First phase of the project: study to identify the needs of H2 skills of 100 enterprises of the sector. Second phase: action plan, creation of Hydrogen training modules (initial or vocational training) for enterprises or unemployed.

• Promote regional stakeholders' initiatives and projects
• Exchange good practices with other stakeholders at EU level and identify funding and project opportunities
• Participate to a dialogue with representatives from economic and VET sector to identify common challenges & solutions.
EXAMPLES OF COLLABORATION OF ASA MEMBERS THROUGH PROJECTS/INITIATIVES

• Examples of ERASMUS+ Projects submitted and/or in preparation
  • National Levels
    • AI/Machine Learning Expert training course
  • Central Projects
    • Forward Looking projects, CoVEs, etc.

• Example of cluster excellence projects
  • Facilitation of ASA network, collaboration and tools (EU-Wide DB of training courses & microcredentials, and ASA Open Learning Platform)
EXAMPLES OF COLLABORATION OF ASA MEMBERS THROUGH PROJECTS/INITIATIVES

• Example of Projects/Initiatives at Regional Level
  • TRAUTOM, Moravian-Silesian Region, Czech Republic (Just Transition Fund Mechanism)
    • Expected size 20M EUR (80% directly to the training courses execution – covering also salary of the workers)
    • Target is to have 5000 People up-/re-skilled till 2026
    • Builds Ecosystem for continuous education and training on the regional level (industry, education and training providers, regional authorities, social partners)
    • Builds regional Ecosystem for continuous skills intelligence gathering and update in relation to the regional and European view
    • Implements and connects with the European layer (ASA) – best practices sharing & education and training providers network
Thank you for your attention!!
