- (2) VET as the backbone of the economy
- (3) Career choice is a family project

Dual VET as the backbone of the economy

Why and how are young people motivated for an apprenticeship

The WHY:
Social
recognition

A chef in a professional kitchen, wearing a white chef's coat and a dark apron, is focused on preparing a dish. He is standing at a stainless steel counter, which is covered with various ingredients and kitchen tools. In the foreground, there are several bowls containing different components of the meal, including what looks like eggs and vegetables. The background shows other kitchen equipment and a window looking out onto a bright day.
